DECEMBER 4-5, 2025 – MEETING OF THE BOARD OF DIRECTORS

BRUSSELS, BELGIUM- BOD-2025-12-DOC 09 – FOR INFORMATION

RESULTS REPORT 2025

Please note: In accordance with the GPE Transparency Policy, documents are public only after their appraisal by the relevant governance instance. Governance officials may circulate documents to their constituency for consultation purposes, except for documents of a confidential nature.

Key issues for consideration:

- The Results Report provides a macro view of the status of GPE's performance at different levels of the GPE 2025 results framework to help the partnership reflect on progress and areas for attention.
- It discusses progress on implementation of the GPE 2025 strategy against a set of specific indicators, which were agreed with the Board at the start of GPE 2025. It also outlines the sectoral context in which GPE operates.
- The Performance, Impact and Learning Committee (PILC) discussed the report's findings during its meeting in October 2025. Members welcomed the design and format of the Results Report. The Committee also welcomed the findings on progress, including the improvement in grants approvals and disbursements. Members reiterated the need for disaggregated data by refugee status, disability, and other variables going forward, the approach to collecting which has been strengthened under GPE 2030.

Objective

1. The Board is requested to review the GPE 2025 Results Report and reflect on the implications of the findings for the partnership and GPE 2030 Strategy.

Background and overview

1. The Results Report is developed annually in accordance with the December 2020 Board decision (BOD/2020/11/12-08). It highlights progress toward the GPE 2025 goal and objectives as reflected by the results framework indicators. This is the final results report for GPE 2025. ·
2. The report presents data for calendar years 2023 and 2024 for sector-level indicators and data related to GPE grants and processes for fiscal year 2025 . On the basis of the indicators, the report provides a comprehensive but succinct overview of several aspects of the Partnership's work within the broader context of the sector. It also highlights the key achievements over the 2020-2025 period. ·The report is not an evaluation, and it is not meant to provide in-depth

information on any one area of GPE's work. Rather, it is a summary that allows the partnership to get a birds-eye view of GPE's work and achievements and areas for improvement.

3. This year's Results Report is considerably shorter than previous reports to present findings more succinctly and sharply. The first section of the report summarizes GPE's key achievements over the GPE 2025 strategy period, organized by its country-level and enabling objectives. It shows GPE 2025's considerable achievements, including strong progress in supporting partner countries in strengthening their education systems and crowding in financing for countries' priority reforms. GPE grants contributed to partner countries' system reforms and outpaced GPE 2020 in their achievements. GPE grants, together with cofinancing from partners, supported 372 million children, with almost 70 percent of those children in partner countries affected by fragility and conflict. They also helped train 4.7 million teachers, distribute 272 million textbooks, and build or renovate 92,000 classrooms, more than double the achievements under GPE 2020. GPE also successfully leveraged international financing for education and improved aspects of domestic financing for education.
4. The section on "*Goal: Learning Outcomes, Access and Equity*" covers the broader context within which GPE operates. This section shows that partner countries' sector-level progress toward their Sustainable Development Goals 4 (SDG 4) targets in 2023 (the latest year for which SDG 4 data are available) is still constrained due to the effects of COVID-19. The UNESCO Institute for Statistics (UIS) and the Global Education Monitoring (GEM) Report team collaborated on the analysis and presentation of the SDG 4 indicator data
5. The full report (Annex A) is available on the Governance Portal.
