ALLOCATION OF IMPLEMENTATION GRANTS BY PRIORITY AREAS UNDER GPE 2025 AND BY EDUCATION LEVELS

This document presents highlights of the GPE Secretariat’s analysis of grant allocation i) by thematic area and ii) by education level.

1. Thematic allocation by GPE 2025 priority areas

GPE2025 Strategic Plan has eight priority areas: access, learning, gender equality, inclusion, early learning, quality teaching, equity, efficiency and volume of domestic financing and strong organizational capacity. As a part of corporate monitoring, GPE Secretariat codes grant program documents to understand the extent to which these priority areas, as well as activities under each priority area, are supported by GPE’s grants. The analysis covers all active implementation grants1 and is updated regularly. The coding framework used for this analysis is available on our website.

The results shown below cover 82 implementation grants that were active at some point in calendar year 2022. The total grant amount for these 82 grants is $2.6 billion. All these grants were approved prior to GPE2025, except for one.2

Allocation by GPE 2025 eight priority areas

Figure 1 Estimated amount (in US$ million) and proportion (%) supporting each of the eight priority areas under GPE2025

Note: The amount allocated to gender equality in this figure does not fully encompass the grant support to gender equality because one activity can benefit multiple priority areas, in which case the cost of the activity is split across those priority areas.

1 Education sector program implementation grants and multipliers. Accelerated funding grants are not included in this document.

2 These grants were approved between 2013 and 2022.
Gender mainstreaming in grants

Figure 2 Number and proportion (%) of grants mainstreaming gender equality in one or more activities

Note: All grants included in this analysis except one were approved before the roll-out of GPE2025 operating model, which requires all grants to hardwire gender equality.

Grant support to selected areas

Below shows the estimated amount (in US$ million) and number of grants supporting selected thematic areas. For GPE grants’ contribution to other thematic areas included in the Codebook, please send an email to information@globalpartnership.org, with “grant coding” in the subject line.

Learning

Curriculum and learning standards

$47.73 million 44 grants

Textbooks and learning materials

$90.98 million 57 grants

Learning assessments

$92.08 million 59 grants

Use of ICT/EdTech

$62.29 million 53 grants

Teachers and teaching

Pre-service education

$54.05 million 41 grants

In-service training

$150.04 million 73 grants

Coaching and mentoring

$38.16 million 43 grants

Teacher management

$131.68 million 46 grants

Assessment of teaching quality

$34.01 million 33 grants
Access

Education facility and infrastructure
$141.30 million 55 grants

Cost of education
$34.62 million 28 grants

Travel time to school
$10.39 million 9 grants

Community outreach
$23.85 million 42 grants

Gender Equality

Gender-responsive teaching and learning
$39.40 million 32 grants

Gender-responsive health and hygiene
$21.91 million 24 grants

School related gender-based violence
$14.35 million 18 grants

Gender-responsive education infrastructure
$58.49 million 26 grants

Inclusion

Support to children with disabilities
$86.13 million 54 grants

Support to refugee education
$6.80 million 6 grants

Support to IDPs' education
$10.53 million 12 grants

Support to out-of-school children
$25.73 million 27 grants

Nutrition and school feeding
$13.77 million 14 grants

Health and hygiene
$56.62 million 44 grants

System strengthening

Coordination, dialogue and engagement
$47.56 million 46 grants

Planning and formulation of policies and strategies
$59.01 million 56 grants

Management and implementation
$127.78 million 60 grants

Monitoring, Evaluation and Learning
$99.65 million 61 grants

Education Management Information Systems
$48.44 million 51 grants

System capacity for education in emergencies
$19.86 million 17 grants
Support to learning content areas:
Number of grants active at some point in 2022 supporting selected content areas. Total number of grants active at some point in 2022 was 82.

Foundational learning: **33 grants**  
Climate change: **21 grants**  
21st century skills: **8 grants**  
STEM education: **20 grants**

2. Grants’ allocation by education levels
Each year, GPE reports to the Organization for Economic Co-operation and Development (OECD) the estimated amount disbursed for different education levels. The results shown below cover 61 grants for which GPE has disbursed some amount in calendar year 2021.

*Figure 3 Estimated amount (in US$ million) and proportion (%) of grant amount disbursed, by education level*
