UPDATE ON THE IMPLEMENTATION PLAN OF THE GPE STRATEGIC PLAN

For Information

1. PURPOSE

As part of its responsibility to report to the GPE Board of Directors on an annual basis, the Global Partnership for Education (“GPE”) Secretariat collects and aggregates information on activities undertaken to support the achievement of the Strategic Objectives outlined in the Implementation Plan of the GPE Strategic Plan. The purpose of this paper is to provide the Board of Directors with a summary update of these activities (for each Strategic Objective), during the period May-October 2013.1

2. RECOMMENDED DECISION

This paper is for information only. No decision is being sought at this time from the Board of Directors.

3. EXECUTIVE SUMMARY

3.1 In May 2013, the Board of Directors approved the Implementation Plan of the GPE Strategic Plan. The Implementation Plan represents a more detailed and actionable breakdown of the Strategic Plan and includes outcomes, actions, indicators and timelines associated with each of the five Strategic Objectives.

3.2 In order to help execute the activities outlined in the Implementation Plan, Technical Focal Points from the GPE Secretariat have been identified for each Strategic Objective. In addition, several GPE partners have volunteered to play leadership roles in

helping drive progress under activities associated with each of the five Strategic Objectives.

3.3 To increase collaboration and participation across the Partnership, the GPE Secretariat proposed establishing Communities of Practice\(^2\) for each Strategic Objective. These Communities of Practice are designed to help source relevant knowledge from across the entire spectrum of GPE’s stakeholders. Through these Communities of Practice, the intent is to enhance a sense of joint ownership, coordination and knowledge-sharing, with a targeted focus on delivering the activities that underlie each Strategic Objective.

3.4 Terms of Reference (ToR) for each of the five Communities of Practice have been drafted and are tailored to the unique needs of each of the five Strategic Objectives.

3.5 Although significant progress in implementing activities outlined in the Implementation Plan over the past 6-month period is evident, success in achieving the totality of the outcomes described under the five Strategic Objectives will require a significant amount of sustained engagement, coordination, and collaboration from across an array of stakeholders at the country and global levels in the remaining period leading up to 2015.

4. BACKGROUND

4.1 The GPE Strategic Plan 2012-2015 was approved by the Board of Directors at its audio-conference meeting in July 2012. The Strategic Plan Working Group established five Thematic Groups,\(^3\) one for each Strategic Objective, and tasked them with outlining a framework of activities that would be necessary to achieve the five Strategic Objectives.

4.2 At the direction of the Strategic Plan Working Group, the Thematic Groups engaged in extensive consultations with stakeholders across the Partnership. The recommendations made through these consultations ultimately helped to inform the
