   b. in the event that at the time of the Governance, Ethics, Risk and Finance Committee’s (“GERF”) report to the Board of Directors recommending the announcement of a Maximum Country Allocation to an eligible country the US Dollar exchange rate is different than the rate in effect at the time of the replenishment, the US Dollar allocation recommended shall be adjusted to maintain the same local currency equivalent as calculated at the time of the replenishment;
   c. the GERF may recommend an exception to the methodology outlined in b. above based on country context and the rationale for any exception shall be disclosed in the GERF’s report;
   d. on an exceptional basis, restates the Maximum Country Allocations in Annex 4 of BOD/2015/05 DOC 06 previously announced by the Board of Directors in December 2014 in accordance with the provisions of paragraphs a and b, and with the exception that the date for recalculating the US Dollar exchange rate for comparison with the rate in effect at the time of the replenishment shall be the date of Board approval;

   b. the Secretariat in consultation with the Trustee, Supervising and Managing Entities (“SE/MEs”), and relevant Donor Partners to develop a proposal for consideration at the next meeting of the GERF outlining the implications of facilitating Euro denominated grants in addition to existing US Dollar denominated grants as a potential solution to limit the current significant mismatch between the high value of non-US Dollar based contributions compared to the value of US Dollar based liabilities;
c. the Secretariat to engage with SE/MEs to consider the scope for efficiency gains to be found in both the existing portfolio and when considering new requests for funding;
