

## Endorsement of the Maldives Education Sector Plan 2019-2023

The UNICEF Maldives Country Office, the World Bank Education Global Practice, Care Society and the Teachers Association of Maldives have positively appraised the Education Sector Plan (ESP) for Maldives 2019-2023, developed jointly by the Ministry of Education and Ministry of Higher Education in consultation with education stakeholders. The Development Partners find the ESP to be credible and ambitious to bring improvement in the quality of education in the Maldives. The ESP is evidence-based and was developed through a consultative process which garnered strong commitment from relevant stakeholders. The ESP's strong focus on equity and inclusivity will enable the most marginalized children and young people to be reached with quality formal education and life-long learning opportunities.

The Development Partners endorse the ESP and are strongly committed to support the Government of Maldives in the implementation of the ESP.
