Terms of Reference - Country Support Team Short Term Consultant Education Specialist

Background/General description

Established in 2002, the Global Partnership for Education ("Global Partnership" or GPE), formerly the Education for All Fast Track Initiative, has grown and evolved to become the premier partnership focused on basic education in developing countries. Its members include 65 of the world's poorest developing countries, over 30 bilateral, regional, and multilateral agencies; development banks; the private sector; civil society groups; and teachers’ organizations. The Board of Directors is the Global Partnership's governing body, sets its policies and strategies and approves all funding.

The mission of the Global Partnership is to galvanize and coordinate a global effort to deliver a good quality education to all children, prioritizing the poorest and most vulnerable. To that end, the Global Partnership helps its member countries to develop and implement sound education sector plans and has allocated approximately $4.7 billion in education grants to date. The Global Partnership mobilizes international financing and promotes/efficient use of international and national resources to support developing countries' education goals and sector strategies.

With over 100 staff, the GPE Secretariat is hosted by the World Bank in Washington, D.C. The Country Support Team (CST) is the Secretariat's primary interface with developing country partners. The team comprises a group of Senior Country Education Specialists (‘Country Leads' or CLs) who each lead on the relationship with and support to a portfolio of countries. They are supported by a group of Education Specialists, Monitoring Specialists and an operational support team. The Secretariat currently has a need for an STC Education Specialist post. The primary role is to support the work of the Secretariat in facilitating the achievement of GPE's three country level strategic objectives in assigned countries. These are (1) to strengthen education sector planning and policy implementation; (2) to support mutual accountability through effective and inclusive sector policy dialogue and monitoring; and (3) to ensure that GPE financing efficiently and effectively supports the implementation of sector plans focused on improved equity, efficiency and learning.
