Annex 1: Template for Country Commitments

Recognizing the enormous pressures and significant uncertainties facing governments and policymakers at this time, and the need to ensure commitments are credible, the following principles are designed to guide their formulation.

### Volume commitment

#### Basis for commitment (%)

<tr>
<th>Education expenditure as a share of total budget (inc. debt servicing)</th>
<th>Education expenditure as a share of total budget (excl. debt servicing)</th>
<th>Education expenditure as a share of GDP</th>
<th>Per capita education expenditure as a share of per capita GDP (by sub-sector)</th>
<th>Other % (please specify)</th>
</tr>

#### Description of education budget perimeter

Please list all line ministries responsible for elements included in the calculation of education expenditures. Ideally this description should identify where in the national budget relevant elements are recorded.
- Ministry of finance
- Ministry of Education

#### Historical and projected expenditures (%)

Please include all available historical expenditures (executed budget), as well final projected value for the year in which your commitment ends. Inclusion of intermediate values are encouraged but not required. If your commitment ends before 2025 (the duration of GPE’s new strategic plan) please provide a brief rationale below (eg. alignment of commitment duration with country MTEF).

<thead>
<tr>
<th>2019</th>
<th>2020</th>
<th>2021</th>
<th>2022</th>
<th>2023</th>
<th>2024</th>
<th>2025</th>
</tr>

<td>8.89%</td>
<td>9.62%</td>
<td>9.24%</td>
<td>10.43%</td>
<td>11.60%</td>
<td>12.80%</td>
<td>14%</td>
</tr>
</tbody>
</table>

#### Rationale (optional):

Somaliland approved national budget in 2021 is $350,250,000. The projection of the flowing years is based on assumption of continuation of previous year's average national budget increase at the rate of 9%. This will also help to project annual education budget share from (2021) 9.24% to 14% at the end of 2025 by a constant education budget rate of increase annually at the rate of 1.2%.
Other indicative policy commitments

Please describe here any significant policy commitments on equity and efficiency on areas of priority for your country. These might include gender, equality, better management of the teacher workforce, improvements in timeliness and accessibility of data for mutual accountability, national recovery stimulus spending targeting education, as well as cross-sector imperatives, including restoring/expanding school health and nutrition programs to leave no one behind etc. We also encourage commitments to strengthen the working relationship between Ministries of Finance and Education.

Other Ministries and LEG

Please indicate if this commitment was endorsed by other ministries as relevant, including the Ministry of Finance, and has been shared with the LEG:

This commitment has been endorsed by the Ministry of Education and Ministry of Finance and will be shared with the Education Sector Coordination (ESC) members.
