GLOBAL PARTNERSHIP FOR EDUCATION POLICY ON TRANSPARENCY

I. ACCESS TO INFORMATION

Transparency is a guiding principle of the Global Partnership for Education ("GPE"). Information about GPE's decisions and operational activities will be made available to the public in the absence of a compelling reason for restricted information.

The Global Partnership recognizes that the effectiveness of its programs is strengthened by providing public access to information concerning decisions and operational activities. The broad availability of information to the public will increase understanding and support of the Global Partnership's mission, and increase transparency, accountability and public oversight of GPE-supported operations during their preparation and implementation. Transparency and objective use of restricted information will contribute to protect the reputation and integrity of the Global Partnership and to promote broad public trust in its activities.

The Global Partnership also publishes its funding data on the International Aid Transparency Initiative (IATI) registry.

II. POLICIES APPLICABLE TO GPE OPERATIONS AND DECISIONS

The Global Partnership acknowledges the World Bank’s Policy on Access to Information as well as similar policies of its Partners. The Global Partnership also encourages all stakeholders participating in the work of the Global Partnership at global and country level to adhere to and respect those principles in accordance with their own policies. The specific provisions in this policy apply to the GPE Secretariat, Board and Committees.

The World Bank’s Policy on Access to Information applies to all activities undertaken or managed by the GPE Secretariat as well as staff of the World Bank, acting as Trustee of the Global Partnership for Education Fund. Under this policy, the GPE Secretariat provides access to all information in its possession, except information for which disclosure could cause harm to specific parties or interests. Restrictions are considered exceptions and need proper justification (e.g., deliberative information, personal information, information provided by partners or third parties in confidence, Board Executive Sessions and corporate administrative matters).

In order to allow for a thorough deliberative process and to avoid miscommunications on issues that have not yet been decided on by the Board, Committee papers are normally considered to be part of a deliberative process and are not made public unless part of a subsequent Board paper or unless
otherwise agreed by the relevant Committee Chair or Board Chair. Board papers are considered to be deliberative until after they have been considered by the Board at an official meeting, at which point the paper will be made publically available on the GPE website. When a paper is deliberative and not publicized on the GPE website, the status of such papers will include a statement to that effect.

III. IMPLEMENTATION

The oversight of the detailed implementation of this policy is the responsibility of the Secretariat’s Chief, Finance and Operations. The Secretariat will disclose to the GERF on an annual basis the circumstances of any requests for information that were denied.

The absence of a document or information on the GPE website does not necessarily point to its confidentiality nor should it prevent any member of the public from requesting that document or information. For any queries in relation to this policy, they may be addressed to gpegovernance@globalpartnership.org.
