GPE Strategic Plan

Launching GPE’s next strategic planning process
“How can GPE best leverage our model and resources to get every child in school and learning?”
Education is key to achievement of the SDGs

- **SDG 4** contributes to achievement of every other SDG
- The world is **not on track** to reach targets set for SDG4

**Lack of data has been a major obstacle to monitoring progress**
Working towards 2030

2019

GPE New Funding Model
GPE 2020 Approved Discussion June 2019

IFFEd launched
UNESCO flagship publication on education

• World Development Report
• Facing Forward

GPE 2020 vision is taken from SDG4

**Vision**

“To ensure inclusive and equitable quality education and promote lifelong learning opportunities for all”

**Mission**

“To mobilize global and national efforts to contribute to the achievement of equitable quality education and learning for all, through inclusive partnership, a focus on efficient and effective education systems, and increased financing.”

Do the GPE 2020 vision and mission, goals, and objectives remain relevant?
Theory of change includes goals and objectives

School Age population growing

By 2050 - 33% of global youth will live in Sub-Saharan Africa

Source: Brookings.edu based on U.N. World Population Prospects 2017 Revision, Medium Variant projections. Youth defined as 0-24 years old
Rate of OOSC has stagnated since 2012
There is a learning crisis
Equity affects who is in school and learning

Lower secondary completion rates by location and socioeconomic status, disaggregated by gender

Source: UIS & UNESCO WIDE; Most recent data available between 2013 and 2017
Multiple exclusions compound disadvantages
Especially for Girls

**Figure 2.6 Multiple exclusions: Girls from poor households often have the lowest rates of education attainment**

Percentage of youth (ages 15-19) who have completed each grade, by wealth quintile and gender, selected countries (2012)

- **a. Pakistan**
- **b. Mali**
- **c. Peru**
- **d. Indonesia**

Source: WDR 2018
More and Better Financing is needed

• Increase in domestic financing but not all countries meeting needs identified in ESPs
• Gains to be made on efficiency
• ODA to education has stagnated, often not directed to where it matters most
• Burden continues to fall on families in poor countries to make up shortfall

Source: UNESCO GEMR Policy Paper 36
New evidence has emerged during the last 5 years

- Highly effective practices
- Importance of strong, well aligned education systems focused on learning
- Invest early to narrow equity and learning gaps later on- progressive universalism
- Innovation - including technology - potential to secure learning gains, successful innovation often small scale, not system wide

Source: The Learning Generation
Human Capital index shows reinforcing impact of investment across sectors

Three building blocks for human capital:

• **Survival**: Will children born today survive to school age?

• **School**: How much school will they complete and how much will they learn?

• **Health**: Will they leave school in good health, ready for further learning and work?
How is GPE doing?
Substantial evidence available

Results Report
How well is GPE performing with respect to its results framework?

Country Level Evaluations
How well is GPE’s operational model working at the country level?

Effective Partnership Review
Do GPE’s funding model requirements and ways of working with Partners maximize impact and minimize transaction costs?

ESPDG review and closed ESPIG review
How effective have the ESPDG grants been at supporting plan development? How well have closed ESPIGs performed?
What does the evidence tell us?

- Learning is low, data are forthcoming in several DCPs.
- Improved completion, out of school rates still high
- Markers of inequity include: FCAC status, rural location, and girls
- Domestic financing has grown in real terms, countries still face financing gaps in plan implementation
- GPE model has emphasized upstream planning process, less focus on implementation
- Perception that GPE requirements are applied too rigidly, affects national ownership
- GPE is a well-managed organization, but improvements needed in: efficiency of disbursements; demonstration of results
Key Propositions
Questions for Consideration

• Should we extend the timeframe of the next strategic plan to align with SDG4?

• Should we reaffirm the vision, mission, goals, and objectives of GPE 2020 and bring them forward?

• Should we accelerate progress by introducing some key shifts in GPE’s way of working including:
  ➢ Differentiate our approach based on country context
  ➢ Focus on and finance priority areas
  ➢ Invest to accelerate impact and create responsive education systems
  ➢ Strengthen mutual accountability and build governance agility
Differentiate

Should we introduce greater flexibility?

*For example:*

- Vary **our approach** according to context and capability?
- Move from an allocation to **demand driven model** to incentivize efficiency in spending?
- Introduce **greater flexibility** into our funding model to better reflect country processes?
Focus on and Finance Priority Areas

Should we elevate priority areas to leverage change and influence outcomes on equity and learning?

- **Incentivize** progress in these areas?
- Invest differently to **catalyze** greater impact?
- Use our funds to target **key challenges** at country level?
Accelerate impact

Should we invest to accelerate impact and create responsive education systems?

- Better leverage partnerships for joint impact across sectors?
- Acquire complementary strategic capabilities to address key needs evidenced in DCPs?
- Bridge the “100 year” gap by investing in and scaling innovation to drive impact?
Strengthen Mutual Accountability

GPE model is predicated on “mutual accountability”

- But, without weight of the Partnership, limited leverage
- EPR is considering this but more emphasis needed
- Governance review planned for 2020
Process
Strategy Development Timeline

2019

JUNE 2019
- Strategy process launched
- OCT
- Committee discussions

NOV
- DEC 2019
- Options for Board discussion
- ISE preliminary findings

2020

JUNE 2020
- Final strategy for Board approval
- JUNE
- Strategy drafting

CONSULTATIONS

Funding Framework discussions

CONSULTATIONS
Consultation Process

- Consultations across the Partnership
  - SIC to review proposed process and package
  - Constituencies to host self-led consultations soliciting views from all members
  - Webinars hosted by Secretariat open to all actors
  - Specific outreach to DCPs

- Facilitated conversations with leaders from the education and development sectors

- Consultations most intense during the period immediately following June 2019 Board meeting, will continue over course of strategy development period to ensure substantive opportunities to provide feedback
Leadership & Governance

Composition: Committee Chairs
Chaired by: Chair and Vice-Chair of the Board

Coordinating Committee

Strategy Steering Group

FRC
- Eligibility and Allocation
- Incentives
- Gender

SIC
- Consultation process
- Priority Areas
- Gender

GPC
- Funding Model Requirements
- Partnership Expectations
- Gender

GEC
- Implications for GPE governance
- Gender
Key Questions for the Board

• Are we asking the right questions?

• Is there anything missing?

• Does the proposed governance and timeline for the process look right?
Board Decision:

**BOD/2019/06-XX- : The Board of Directors:**

1. Launches the process to develop the next GPE Strategic Plan and associated Funding Framework
2. Approves the timeline and governance approach included in BOD/2019/06 DOC XX
