   - based on the decision to integrate the Knowledge and Good Practice Exchange initiatives on learning assessments, early learning, and gender through related themes under the Knowledge and Innovation Exchange mechanism, the three existing staff positions previously approved under those initiatives and financed through targeted contributions may be integrated into the regular headcount of the Secretariat once targeted funding for those positions has been fully utilized.

3. The Board suggests that the funding, procurement, and contract management of the above work be provided by a GPE partner to maximize independence. In the event that an external funding source is not identified by 30th June 2018, or the procurement process is not feasible within the desired November 2018 deadline, the Board Chair may authorize the GPE Secretariat to facilitate the procurement process and fund it from the operating expenses budget.

4. The Secretariat to contract a suitably qualified external firm(s) to develop and submit a detailed assessment of required actions and costs for the Board’s consideration in the event that the Board takes a decision to establish a separate legal entity.
5. The TORs and timelines of both studies should be agreed by the ad hoc group, and communicated to the Board to allow for a short period of consultation.
