## Indicator (34) Number of advocacy events undertaken with partners and other external stakeholders to support the achievement of GPE’s strategic goals and objectives

| Result measured (from GPE Results Framework): | Strategic Objective 5: Building a stronger partnership  
(c) Expand the partnership’s convening and advocacy role, working with partners to strengthen global commitment and financing for education |

## JUSTIFICATION FOR INDICATOR

### Background/context for indicator:
Multi-stakeholder partnerships have come to be recognized as effective structures for advancing development outcomes. One core added value of partnerships is in the domain advocacy as is recognized in the UN Global Development Goals. SDG 17 is to “Strengthen the means of implementation and revitalize the global partnership for sustainable development”. It recognizes multi stakeholder partnerships as “important vehicles for mobilizing and sharing knowledge, expertise, technologies and financial resources to support the achievement of the sustainable development goals in all countries, particularly developing countries”\(^1\).

### Rationale for indicator selection:

1. The GPE theory of change and Results Framework identifies two global-level objectives that will enable achievement of the country-level objectives and support strong contributions to the partnership’s three strategic goals. In line with the second of these global-level objectives (Building a Stronger Partnership), over the coming five years, the partnership will expand its convening and advocacy role to raise global political commitment and mobilize international and domestic resources to meet the educational needs of the poorest and most marginalized\(^2\). In this sense this indicator offers clear evidence regarding the advocacy activities with partners and external agencies working with GPE to achieve the results at the global-level, which in turn will be fundamental to achieve outputs at the country level and long term strategic goals.

2. This indicator expands on the definition of advocacy partners ensuring our efforts reach beyond the education sector. In April 2016, GPE and UNCHR signed an agreement on closer collaboration to support education for refugee children and youth\(^3\) and increasingly GPE is working with advocates and advocacy groups from across the development and political spectrum.

https://sustainabledevelopment.un.org/content/documents/2257Partnerships%20for%20SDGs%20-%20a%20review%20web.pdf p.2

\(^3\) UNCHR, GPE, Press Release. *UNHCR and GPE Agree on Closer Collaboration to Ensure Children’s Education During Crisis* (April, 2016)  
http://www.unhcr.org/5710da576.html
While, GPE is a strong supporter of national education CSO’s, through the Civil Society Education Fund (CSEF) initiative\(^4\), and supports increased engagement of teachers’ organizations in sector policy dialogue, we recognize that strengthening global commitment to education and increased financing requires advocacy reach beyond education actors who are natural members of the Global Partnership. Hence the reference to ‘partners and other external stakeholders’ in the indicator title.

3. Devising SMART indicators for measuring successful advocacy is a challenge shared by many organizations. The outcome is increased political commitment, itself notoriously difficult to measure. In order to measure progress in “expand(ing) the Partnership’s convening and advocacy role”, we have selected to measure the number of events undertaken with others.

4. This indicator is considered a good measure of the activities performed at the input level in order to generate momentum and long-term opportunities pertaining the achievement of outcomes and impact. Including ‘undertaken with partners and other stakeholders’ speaks to the intent of collaboration and the need to also work with actors beyond the education sector. Recognizing that there is potential for sharpening measurement of advocacy, we will pursue further analytical work to explore alternative indicators. In particular, we are conscious of the need to move beyond counting collaborative ‘events’. It may be that ‘engagement’ is preferred over ‘event’ as achieving influence (over commitment to education, for example) may occur through direct engagement rather than what is normally considered an ‘event’ (i.e. a public seminar/panel/conference/meeting).

### DEFINITION

**Indicator definition:**

Number of advocacy events undertaken with partners and other external stakeholders to support the achievement of GPE strategic goals and objectives.

Advocacy events will be identified as activities that meet all of the following conditions:

1. Engagement occurring within the fiscal year of analysis.
2. Engagement is organized in collaboration with at least one other partner or external stakeholder and includes at least one participant whose mandate or responsibility for representing GPE is accepted by the participant and others engaged in the activity.
3. Engagement is externally facing and regional, global or cross-national of nature.
4. Engagement (a) with an objective relevant to GPE’s mission and the goals of GPE 2020 and (b) where the specific objective of participation is to generate momentum for these goals.

The phrasing of the indicator as being engagements ‘undertaken with partners and other external stakeholders’ is an incentive to collaborative advocacy effort, which in turn speaks to the overall objective of ‘strengthening the partnership’.

**Unit of measurement:** Absolute number

**Disaggregation:** N/A

| Year for data reported (select only one and mark an “x”) | _X_ fiscal year  
__calendar year |
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Frequency of data collection:</td>
<td>Annually, on a fiscal year basis.</td>
</tr>
</tbody>
</table>

**DATA TREATMENT**

<table>
<thead>
<tr>
<th>Source of information for collecting data:</th>
<th>Source document, template, etc.:</th>
<th>GPE Library / data bases / calendars / website</th>
</tr>
</thead>
<tbody>
<tr>
<td>Source agency:</td>
<td>GPE Secretariat</td>
<td></td>
</tr>
</tbody>
</table>

The assessment includes 4 different criteria set as requirements \( r \):

- **Requirement 1.** Engagement occurring within the fiscal year of analysis.
- **Requirement 2.** Engagement is organized in collaboration with at least one other partner or external stakeholder and includes at least one participant whose mandate or responsibility for representing GPE is accepted by the participant and others engaged in the activity.
- **Requirement 3.** Engagement is externally facing and regional, global or cross-national of nature.
- **Requirement 4.** Engagement (a) with an objective relevant to GPE’s mission and the goals of GPE 2020 and (b) where the specific objective of participation is to generate momentum for these goals.

To be identified as an advocacy event undertaken with partners and other external stakeholders to support the achievement of GPE strategic goals and objectives, all four requirements must be met.

**Formula:**

**Step 1:** Identify compliance for each event \( i \), for requirement \( r \) (1 to 4):

\[
REQ_{ir} = \begin{cases} 
1, & \text{if event } i \text{ meets requirement } r \\
0, & \text{otherwise}
\end{cases}
\]

**Step 2:** Identify if each event \( i \), meets all 4 requirements:

\[
ADV_i = \begin{cases} 
1, & \text{if } \sum_{r=1}^{4} REQ_{ir} = 4 \\
0, & \text{otherwise}
\end{cases}
\]

where:
- \( r = \text{requirement } 1, \ldots, \text{requirement } 4 \)
- \( i = \text{event } 1, \ldots, \text{event } n \)

**Aggregation formula:**

\[
NADV(ADV_i = 1) = \sum_{i=1}^{n} ADV_i
\]

where:
- \( NADV = \text{total number of events } i \text{ that meet all 4 requirements.} \)
- \( i = \text{event } 1, \ldots, \text{event } n \)

**Data limitations (if any known / anticipated):**

For some advocacy engagements, the direct effect of the activity on the results defined under strategic goals or objectives is not immediately
If the objective of the engagement (as it is stated when planned and defined) includes activities that aim to reach the results delineated under the strategic goals and objectives, then the event complies with the indicators conditions even though the event did not actually achieve those objectives.

The indicator makes reference to the number of events per year, yet it does not capture the impact or quality per event. In this respect, there could be a year where less events achieved better results, or created more momentum than more events in another year.

**Interpretation**

A high value suggests GPE is effectively engaging in opportunities to work collectively and collaboratively with partners and allies to raise awareness, discuss challenges and solutions, and advocate for increased domestic and international financing and better results in the education sector.

**Material changes from prior version of SOP**

None; this is the first version.

**Summary**

This SOP describes the process for data collection, quality assurance, and storage for indicator # 34 (Number of advocacy events undertaken with partners and other external stakeholders to support the achievement of GPE’s strategic goals and objectives) of the GPE results framework.

**Results / Outputs**

This process should result in the results framework being updated with quality assured data on indicator # 34

**Interim outputs of the Secretariat:**

- Completed data collection template

**Final Output:**

- Updated results framework database

**Scope**

- Begins: The process begins with Senior Communications Officer collecting data from the GPE library, data bases, calendars and websites using the data collection matrix for advocacy events.
- Ends: The process ends with updated data being integrated into the results framework database by
the Monitoring and Evaluation Data Manager.
• Includes: All procedural aspects
• Excludes: Methodological aspects of calculating the indicator value. These can be found in the methodology sheet.
• Note: Data is to be collected annually.

**Standards (Policies, Approvals, Deadlines, etc.):**
- Policies: GPE 2020, Monitoring Sheet for GPE Results Framework Indicators # 34
- Deadlines: M & E Data Manager updates results framework database with the Indicators # 34 data by 30th October
- Approval: The completed data template is prepared by the Senior Communications Officer and includes quality checks by the M & E Data Manager and final approval from the Head of M & E

**Issues /Risks:**
- Relevant documents might not be available in time.

**Overview:**
